

WALL-MOUNTED CABINETS WITH A NEW LATCH!

ENSTO CUBO W

The Ensto Cubo W series wall-mounted cabinets have been renewed and come now with a new type of quick release latch.

Ensto Cubo W enclosures have pre-assembled hinges and quick release latches. The series is based on the medium size to large general purpose enclosure series Ensto Cubo O and C. Most of the accessories of Ensto Cubo O can also be used for Ensto Cubo W.

The enclosures are manufactured of polycarbonate, standard colour grey RAL 7035, cover grey or transparent.

There are 14 size options and the dimensions follow modules of 100 mm; the smallest is 200 x 200 mm, the largest 400 x 600 mm, depth 130 mm. The 185 mm deep enclosure is built by using an extension frame.

The new quick release latch is small and it has a good design. The material is high-quality polycarbonate, 5VA (UL 94).

The new Ensto Cubo W is easily locked with a padlock – without any accessories! Locking possibility is integrated in the latch.
